EMPLOYER FEEDBACK FOR THE YEAR 2023-2024

Based on the employer responses (38), an overview of the average ratings and evaluations for various criteria is as follows:

1. Demonstrating general communication skills, planning, and organizational skills received an average rating of 2.86, indicating a good level of competency in these areas.
2. Demonstrating creativity in response to challenges received an average rating of 2.65, signifying a moderately positive response from the employers.
3. Graduates possessing adequate skills related to teamwork and adaptability essential for professional success in the industry received an average rating of 2.81, reflecting a generally favorable opinion by the employers.
4. Exposure to working with modern software tools and computers received an average rating of 2.73, indicating a satisfactory level of preparedness in this aspect.
5. Design of curriculum to develop necessary skill set to prepare students to use modern tools to work in the industry received an average rating of 2.76, suggesting a decent level of alignment with industry requirements.
6. Graduates possessing good aptitude and problem-solving skills received an average rating of 2.73, indicating a satisfactory rating in this area.
7. Possessing technical knowledge, skills, and the ability to manage with leadership qualities received an average rating of 2.78, reflecting a good level of competency in these aspects.
8. The availability of placement and training facilities in the college received an average rating of 2.86, indicating a positive perception from the employers.
9. Being open to new ideas and learning new techniques received an average rating of 2.84, signifying a generally positive impression of graduates' willingness to adapt and learn.
10. Being self-motivated and taking on an appropriate level of responsibility received an average rating of 2.89, suggesting a strong positive perception of graduates' self-motivation and responsibility-taking abilities.
11. Cleanliness and maintenance of the college premises received an average rating of 2.78, signifying a decent level of satisfaction in this area.
12. Campus environment conducive to learning and professional development received an average rating of 2.73, indicating a satisfactory perception of the campus environment.
